

General Confirmation of Compliance with the EU Packaging and Packaging Waste Regulation (PPWR)

For the entire product portfolio of Steinbacher Dämmstoff GmbH and Steinbacher Vertriebs GmbH

Dear Ladies and Gentlemen,

As the responsible producer within the meaning of Regulation (EU) 2024/1860 (Packaging and Packaging Waste Regulation – PPWR), we take our legal duties very seriously. We hereby confirm to you as our business partner that all packaging and packaged products supplied by us comply with the statutory requirements of the PPWR.

This general confirmation applies to our entire current and future product range.

We continuously confirm and guarantee that:

- **Conformity Assessment:** The legally required internal assessment procedure has been carried out for all packaging.

In particular, we confirm:

- Compliance with substance restrictions
- Compliance with recyclability requirement
- **Technical Documentation:** The complete documentation has been compiled and is available to the market surveillance authorities upon request at any time.
- **Traceability:** All packaging includes our contact details on a label. Unique batch, type, or serial numbers ensure traceability.
- **Resource Efficiency:** The packaging is designed according to the principles of material minimization and strictly complies with the limits for empty space (max. 50% for grouped packaging).

With this statement, we fully fulfill our duty to support your verification obligations as a distributor or retailer. A legally compliant resale of our products is therefore ensured for you.

This declaration is valid from August 12, 2026. It will only lose its validity in the event of significant changes to materials or new legal requirements, about which we will inform you proactively.

Sincerely,

Erpfendorf, 23. Juni 2026
